

Building Environmental Standards

33 Yonge Street

BOMA BEST is the Canadian industry standard for Green Building Certification. 33 Yonge Street's BOMA BEST Level 3 certification demonstrates commitment to continually improving environmental performance and establishing leadership in energy efficiency. BOMA BEST encompasses the following environmental management and performance criteria:

**Energy • Water • Waste Reduction and Site • Emissions and Effluents •
• Indoor Environment • Environmental Management System •**

Together with GWL Realty Advisors Inc., we can all contribute to this building's environmental performance by minimizing waste, and conserving water & energy. For more tips on how to make your space more energy efficient, and to learn more about the BOMA BEST program, visit www.bomabest.com
